

No Mother Left Behind

Slings For Mothers In Need

Why Wear Your Baby?

*Convenience: Your hands are free to accomplish tasks and be available for other children. No bulky strollers to push around crowded areas. Breastfeed discreetly and on the go.

*Soothing for baby: Research shows that a worn baby cries less and sleeps better. Babies stress level is lower, because his emotional needs of touch, sight and sound are being met.

*Bonding: Baby is close to your heart, developing a strong sense of attachment to you. She feels safe, secure and loved because she is being held. You are close with her, even while working or playing, so you bond with her more.

*Happy Baby: Babies love to be held and receive your kisses and smiles while close. They love to interact with the world around them, learning from life experiences. Happy baby equals happy parent!
